

PROMPT THE FUTURE HACKATHON

- **Problem Statement-** AI-Powered Misinformation & Deepfake Detection System
- **Theme-** AI AND GENAI
- **PS Category-** Software
- **Team Name-** AXIOM

IDEA TITLE

◆ **Our Idea**

- A web-based AI system that detects:
- Fake news text
- Deepfake videos
- AI-generated voice

◆ **How It Solves the Problem**

- Stops spread of misinformation
- Helps users verify content
- Provides instant authenticity check

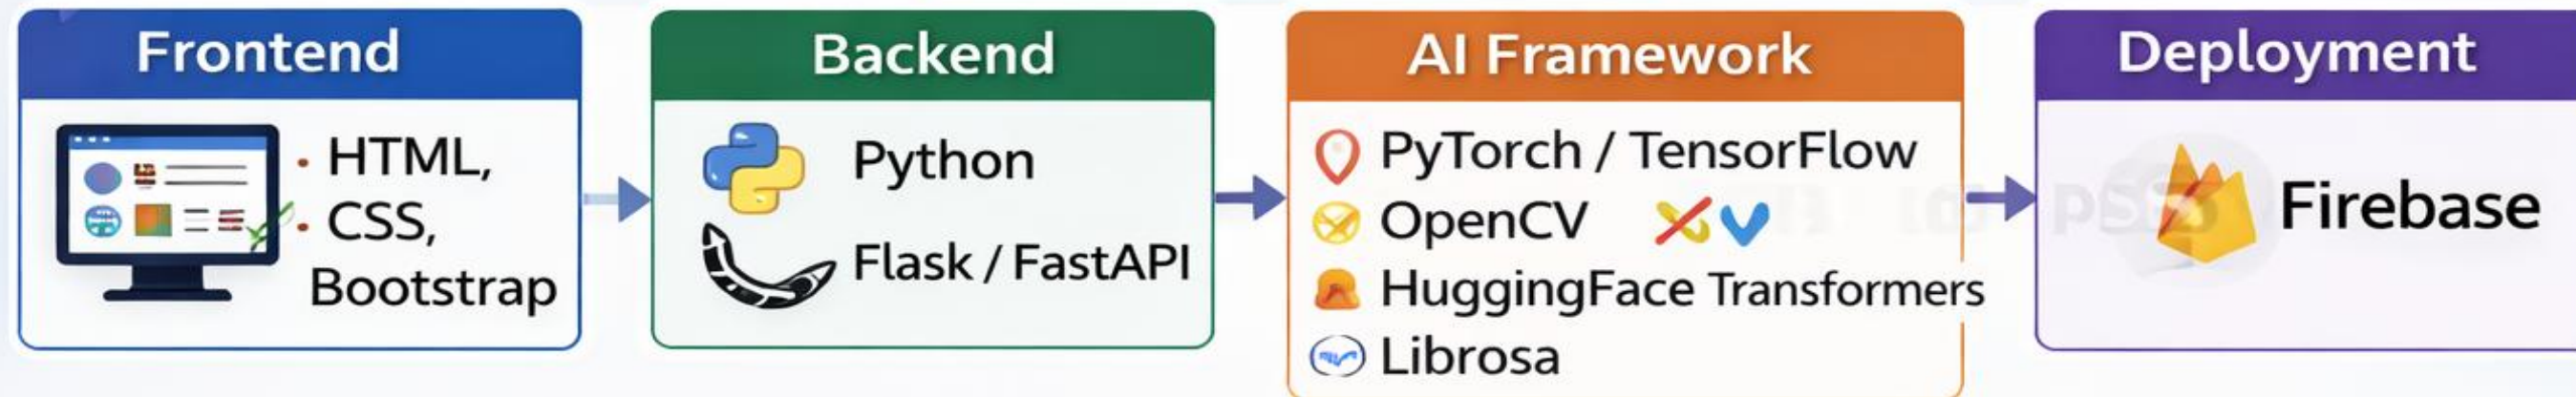

◆ **Unique Feature**

- Combines text, video & audio detection
- Shows confidence score
- Simple and user-friendly interface
